Signature Snare Drum

Limited Edition

The Art of the Snare Drum

No drummer on the contemporary music scene exemplifies the art of the snare drum better than Peter Erskine. Peter's tasteful artistry on Yamaha drums enlivens fusion performances with a compelling musical energy. In landmark sessions with Weather Report and as a featured soloist, Peter has set new standards for musicianship in crossover music. His definitive

recordings that have influenced drummers around the world include "8:30" and "Motion Poet," among many others. In a limited-edition collaboration with Yamaha, Peter now offers you the snare drum that was developed expressly to favor his special sound: the SD-014 Peter Erskine Signature Snare Drum.

Die-cast Hoops

The die-cast hoops on the SD-014 help generate a richly tonal sound, and their excellent rigidity maintains exactly the tuning you want.

Lug Spacers

An original design for the lug spacers maximizes the acoustic power of the shell by minimizing the sound-deadening interference that can arise between shell and lugs.

Evans Uno Heads

Peter insisted on Evans Uno heads for the snare drum that bears his name, and that's what you get with your SD-014: the crisp, clear Evans Uno sound.
