## Die-cast Hoops

These precision-cast hoops enhance tonality and feature superior rigidity for reliable, stable tuning.

## Plastic Washers

Specially formulated plastic washers ensure smooth, accurate tuning.

## New Ring Mute

A new 1/2" ring mute provides a more "open" sound than conventional types, allowing the rich timbre of the drum to come through.

## Strainer Cover

This thoughtful addition reduces strainer lever noise to a minimum.

## Stainless Snare

The stainless-steel snares used in the SD-415MK have been specially designed to eliminate unwanted harmonics that would otherwise mask the beautiful sound of the brass shell.

## Shell Finish

Original Yamaha technology has made it possible to apply a glossy metallic black finish to the brass drum shell that offers extraordinary reliability in addition to good looks.

## Snare Strainer

A simple, straightforward structure gives this snare strainer sure, reliable operation.
