◀ MSD13SG ▶  
Size : 13"x5"  
Shell : All Maple 7-ply 7mm

## ... for those who demand the best.

Steve Gadd puts his signature on six new snare drums that incorporate designs to maximize response and sensitivity especially at lower dynamic levels. The lineup includes two birch and two maple shell models with 35 degree bearing edge and black interior finish. There is also one brass and one steel shell model with a 45 degree bearing edge and black nickel alloy finish. Release-side strainers mounted close to the shell allow fine adjustment of the snares, and a new snare bed design is extremely dynamic and reduces sympathetic vibrations from other drums.

### Specifications

**Hoop :** Triple Flange Hoop (Black)  
**Head :** Batter - MSD13/14SG, BSD13/14SG : Remo Ambassador Coated  
SD255SG, SD455SG : Remo Power Stroke 3  
**Bottom -** Remo Diplomat  
**Snare :** Short / Hi-carbon steel / 10 strands  
**Strainer :** Release side - B type (SG)      Butt side - B type

■ Ten hard high-carbon steel wire snares in an extra long assembly provide maximum response and sensitivity even at lower dynamic levels.

■ Release-side strainer mounted close to the shell maintains tension on the snare string and allows extremely fine adjustment of snare wire tension.
