

SIGNATURE SNARE DRUM

SONNY EMORY

CUSTOM MODEL

NEW

Designed to compliment Sonny Emory's extraordinary playing style his signature snare drum delivers a hard, fat tone. Beech wood, specially selected for its beautiful grain, gives this shell a powerful appearance.*

WSD1455SE Size : 14"x5 1/2"

Shells made of beech, specially selected for its beautiful grain*.

The 8-ply, 10mm thick shell delivers remarkable mids and lows for a dynamic beech tone full of volume. Beech plies, specially selected for their exquisite grain*, are used on the inner and outer layers. Finished with our renowned Vintage Finish, the shell presents a powerfully beautiful exterior.

**Please understand that the woods used are natural products therefore grain and color, such as light and dark areas, will differ between drums.*

25 Strands Snare

At Sonny's request, we used a wider Hi-Carbon Steel Snare that has 5 more strands than a standard snare. This design produces a heavy, yet delicate sound that feels quite comfortable.

Zinc Die-cast Hoop

The 3mm thick die-cast zinc hoop delivers a unique attack and decay with solid tone. Its brilliant rim shots are also stunning.

Small Lugs

To get the most sound out of the shell possible, small lugs are incorporated due to their minimum lug to shell contact. Bolts attach to a precision-machined lug nut inside the casing for superior performance.

Strainers

On the release side our H type strainer was selected for its minimum shell contact and easy operation. On the butt side the B type strainer was selected for its simplicity.
