

OAK CUSTOM

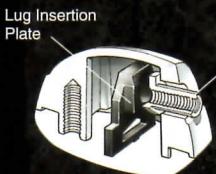

Guaranteed to deliver both volume and attack
for even the heaviest of hitters

R-OAK

Small Lugs

The newly designed Oak Custom Lug features a single bolt attachment to the shell that maximizes the resonance of the drum. Because of this increased shell sustain, a Lug Nut Holding Plate was designed into the composition of the lug. This addition prevents tension rods from loosening even during the hardest hitting performances..... allowing you to concentrate on your playing.

Bass Drum Spurs

The new Absolute style bass drum spurs have been added to support the power of the Oak bass drum. These spurs feature larger diameter pipes that deliver increased stability and durability. Height adjustment is easily secured with a drum key and the spur simply slides out with a slide lever. Even with the bass drum set up you can tell the spur's position by looking at the lever.

The Drums Heard Around The World

Yamaha Drums is the only company that brings the punch of the bass drum, the sharp and cutting edge of the snare, and the 4 colors that match the aggressive sound of the world's greatest drummers.

the World

brings the power of Oak to a full kit. Whether it is the low fundamental hitting attack of the toms, the piercing gun shot of the snare drum or end of Oak ... these drums scream for attention.

All Gloss Finishes!

MSB : Musashi Black

SLS : Silver Sparkle

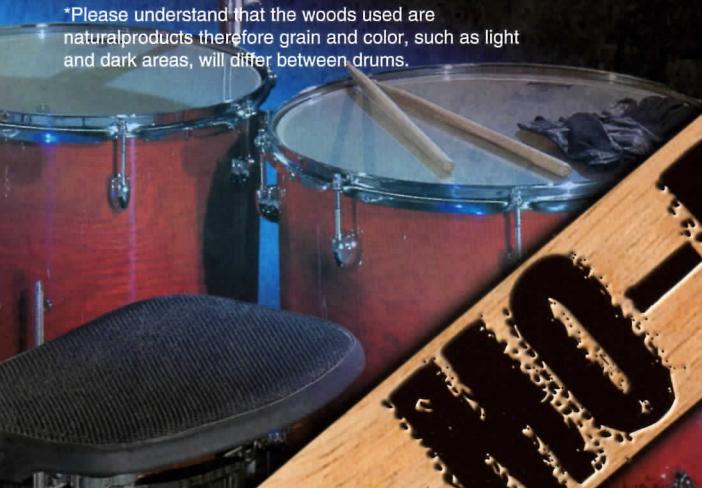

ROK : Red Oak

AMO : York Honey Amber Oak

Oak Custom is available in 4 high gloss colors. 3 of the colors (Musashi Black, Red Oak and York Honey Amber) highlight the unique and beautiful wood grain of the wood, while the fourth (Silver Sparkle) glitters like a diamond under the lights.

*Please understand that the woods used are natural products therefore grain and color, such as light and dark areas, will differ between drums.

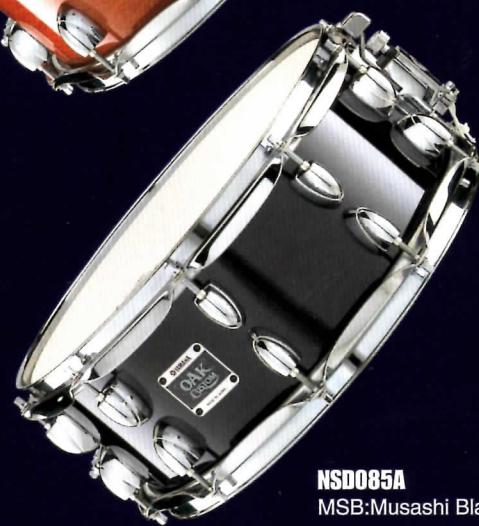

The Oak Bass Drum is changing the drum industry because of its superior low fundamental.
If you want low end that shakes the room you're playing, then you want the power of Oak.
